WAL★MART®

Makes it Work!

The Ultimate Sophisticate

Creativity is one of the biggest essentials to having a winning look. This season, go all out with a look that shows how free and expressive you can be with your hair! One way to achieve the right look for you it is to invest in quality hair products. Wal-Mart provides a great selection of all of your hair care needs.

This look is great for the fall, with its china doll bang and tapered sides. The copper toned highlights bring the whole style together with the perfect hint of sparkle. Whether you choose to use tracks for a fuller look or

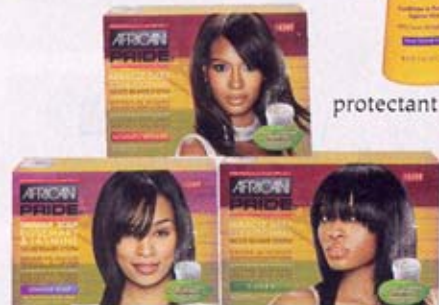

simply go with your own natural length to achieve this look, the key to making this style smooth and silky lies in a having a good quality relaxer.

African Pride relaxers are perfect for

achieving a fierce style like this. African Pride relaxers are legendary for providing optimum care while straightening the hair. These lye-free perms relax the hair while adding body and shine. They include 17 healing and hydrating herbs.

Once your relaxer is applied to the hair and thoroughly rinsed, comb out all tangles with a wide-tooth comb. Add tracks of hair for length and fullness. For a 2 week style use the bonding technique. Next, cut the bangs straight across to create a blunt, china doll effect. To smooth out the hair, apply a thermal hair protectant before blow drying and flat ironing. Motions Heat Seeker Protecting Spray will work wonders for helping you achieve a great look without the added damage of heat styling tools. Flat iron the hair section by section, to achieve a sleek look. Finish up with a light aerosol holding spray for a fabulous style this fall season! For a second look, use the flat iron to flip one side of the hair out and the other in towards the face. Remember—Motions and African Pride products can be found in the ethnic hair care section at your local Wal-Mart.
